PROFILE

Motivated and dedicated MERN Stack Developer with a passion for learning and adapting to new technologies. I continuously enhance my skills to build scalable, high-quality, and user-focused applications. With a growth mindset and strong problem-solving approach, I strive to contribute creatively and effectively to every project I work on.

WORK EXPERIENCE

Front-End Developer

Aug 2024 – Aug 2025

Tec – The Education Consultancy

- Developed interactive learning activities using HTML, CSS, and JavaScript to simplify complex topics for students
- Designed visually engaging pages tailored for educational content
- Worked closely with educators to translate academic concepts into intuitive web-based visuals
- Gained hands-on experience with responsive design and cross-browser compatibility

PROJECTS

DentWise – AI Powered Dental Assistant (SaaS)

Tech Stack: Next.js, PostgreSQL (Neon), Prisma, Clerk, Vapi Voice AI, Resend

- Built a real-time chat app with secure authentication and instant Socket.io messaging.
- Designed a scalable MERN backend for concurrent users and live communication.

[Live Demo](#) | [GitHub](#)

Real-Time Chat Application

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Socket.io

- Built a real-time chat app with secure authentication and instant Socket.io messaging.
- Designed a scalable MERN backend for concurrent users and live communication.

[Live Demo](#) | [GitHub](#)

Personal Finance Tracker (Fintech Application)

Tech Stack: React.js, Firebase, Recharts, PapaParse

- Built a fintech app with authentication, cloud data storage, and a clean user interface.
- Added charts, transaction management, and CSV import/export for financial insights.

[Live Demo](#) | [GitHub](#)

Additional Projects: Todo List App, Tic Tac Toe Game, Text Utils App, and other mini React projects — all available on my [GitHub Profile](#).
